Comments:

The claims, if amended, would create improper dependent form, under 37 CFR 1.75(c), for failing to further limit the subject matter of previous claims. For example, the limitations of claims 24-25 consist of the same scope of the claims 3-4 respectively, in that they both encompass the limitations of graphically "displaying only said plurality of food menu items of said selected food menu that are designated" and displaying said selected food menu items "in order from designated food menu items to non-designated food menu items."

The errors appear to be as a result of the improper renumbering of the claims as submitted in the Amendment filed April 9, 2003. Improper renumbering would have been non-conforming to 37 CFR 1.126. Therefore, it is recommended for Applicants to file for a reissue of the instant patent for proper corrections to be made.
